

Store between 32°-60°F and away from direct sunlight. Use by labeled expiration date.

Product should remain in the brown shipping box until ready to use

If the product has a strong smell, that means the microbe is thriving and ready to go to work.

Use within 24 hours once opened.

Shake box before use. Unscrew the white cap and remove the blue pull ring. Aim and pour directly into the tank.

Expiration date located on the bottom left hand corner of the box
